The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

NOTIFICATION—No. 12 P.D.

The 1st May 1900.—In exercise of the power conferred on him by section 18 of the Chittagong Hill Tracts Regulation, 1900, the Lieutenant-Governor is pleased to lay down the following rules for the administration of those Tracts:—

RULES FOR THE ADMINISTRATION OF THE CHITTAGONG HILL TRACTS.

ADMINISTRATION OF CIVIL JUSTICE.

THE administration of civil justice shall be conducted in the most simple and expeditious manner compatible with the equitable disposal of the matters or suits.

2. The officer dealing with the matter or suit will, in the first instance, endeavour, upon the *viva voce* examination of the parties, to make a just award between them. Witnesses should not be sent for, except when the officer is unable without them to come to a decision upon the facts of the case.

3. The record shall contain the following particulars, namely, the name of the plaintiff, the name of the defendant, the nature of the claim or other matter in litigation, an abstract of the plaintiff's case, an abstract of the defendant's case, an abstract of the depositions of the witnesses (where witnesses are examined), the grounds of the decision, and the order signed and dated.

4. Court-fees shall not be levied in any matter or suit.

5. For the service of processes fees shall be payable at the rate of six annas per diem, according to the number of days the journey taken from the nearest police station.

6. In the issue and enforcing of processes and the execution of decrees, the officers shall be guided, as far as may be, by the provisions of the Code of Civil Procedure. XIV of 1882.

In the case of processes and decrees received from Courts of other districts, the following rules shall be observed:—

(1) The Superintendent shall serve all processes and execute all decrees which are sent to him for service or execution by Civil Courts outside the Chittagong Hill Tracts Courts, and which are accompanied—

(a) by an English letter explaining, in the case of a process, the nature of the suit, and forwarding, in the case of a decree, a copy of the judgment; and

(b) by the fees prescribed by the High Court.

(2) In any case in which, owing to boat-hire or the carriage of rations or similar causes, the cost of service or execution will exceed the fees received, the Superintendent will stay service and will state the cost to the Civil Court concerned, and request that the requisite amount be forwarded.

(3) In any case in which the Superintendent finds that the process should not be served, or that the decree should not be executed, he will record his reasons for so finding, and will at once forward them to the Civil Court concerned, and will retain the process or decree and fees till final orders are passed.

(4) In either of the cases provided for by rules (2) and (3), the Civil Court concerned may refer the Superintendent's orders directly to the Commissioner of Chittagong, and the Commissioner shall pass orders on such reference and communicate them directly to the Civil Court concerned. If any Civil Court desires to make a reference from the Commissioner's orders, such reference shall be addressed to the District Judge for the orders of Government.

(5) The Superintendent will serve the processes and execute the decrees referred to in these rules by the agency of his nazir, or of the circle Chiefs, or of the registered headmen, according to the rank and status of the person on whom the process is to be served or who is the judgment-debtor. The police may not be employed in such service or execution, except to convey the sealed orders to the agent selected for service or execution.

(6) The Superintendent will, in every case, report on the service of the process to the Civil Court concerned, and, as regards the execution of decrees, will keep up communication with such Court till the case is disposed of.

7. The rate of interest decreed by the Courts shall in no case exceed 12 per cent. per annum.

8. Deeds which must be registered under the rules following for the registration of deeds shall not be allowed to be filed in any suit unless they have been duly registered.

9. Suits shall be admitted only on registered bonds in all cases in which registration would be compulsory if the transactions out of which the claims arise were completed by the execution of bonds.

10. All orders passed in civil suits shall be appealable to the Commissioner, who may decide by whom the costs in any such appeal shall be paid.

LEGAL PRACTITIONERS AND AGENTS.

11. No legal practitioners shall be permitted to appear in any matter; and, in all cases where the Chiefs are personally concerned, they are, as far as possible, to be personally dealt with. Agents are only to be allowed when the personal presence of the Chief is inconvenient or impracticable, and they must not be legal practitioners.

REGISTRATION OF DEEDS.

12. Deeds of the following kinds shall be registered, provided that the property to which they relate is situated, or the work or act to which they relate is to be performed, within the Chittagong Hill Tracts:—

13. Deeds not included in the above list may or may not be registered, and they will not be inadmissible in Court by reason of non-registry.

14. No engagement to do anything illegal, immoral, contrary to public policy or manifestly impossible, will be registered.

15. If any document duly presented for registration is in a language which the Registering Officer does not understand, and which is not commonly used in the district, he

shall refuse to register the document, unless it is accompanied by a true translation into a language commonly used in the district, and also by a true copy.

16. It shall be in the discretion of the Registering Officer to refuse to accept for registration any document in which any blot, interlineation, blank, erasure, or alteration appears, unless the persons executing the document attest, with their signatures or initials, such blot, interlineation, blank, erasure, or alteration; and it shall be his duty, at the time of registering the document, to make a note in the register of such interlineation, blank, erasure, or alteration.

17. No instrument relating to immoveable property shall be accepted for registration unless it contains a description of such property sufficient to identify the same.

18. No deed, other than a will or authority to adopt, shall be accepted for registration if not presented to the proper officer within three months of its execution, unless good cause for the omission be shown to the satisfaction of such officer, in which case, if the delay in presentation does not exceed four months, the deed may be registered on payment of four times the ordinary fee.

19. Any will or authority to adopt may be registered at any time.

20. The functions of the Registering Officer shall be performed by the Superintendent or by such other officer as the Local Government may appoint for the purpose.

21. XLV of 1860.

22. Agents will, as a general rule, be allowed to conduct registration only in behalf of (1) Hill Chiefs and persons of high rank; (2) European gentlemen; and (3) *parda-nashin* women. Only agents who are of known respectability, and are personally acquainted with the facts of the case, will be permitted to conduct registration.

24. Persons may be allowed to inspect the books in which deeds are copied, or to take a copy of a deed on payment, in advance, of a fee of eight annas, besides any necessary charge for copying.

25 The registering officer will, before he registers a deed, satisfy himself that the parties appearing before him are really those whom they profess to be, and that they clearly understand the nature and purport of the deed.

26. He shall then record on the deed an endorsement in the following form:—

At (the hour) on this (the date, month, and year) , A.B., son of , resident of and E.F., son of , resident of , recognized by me, (or) duly identified by H., resident of , appeared before me and acknowledged their execution of this deed, and satisfied me that they fully understood its purport.

27. The deed, with the endorsement, shall then be copied without delay into a book previously paged and signed by the registering officer. The copy shall be attested by the registering officer, and the original shall then be returned to the party entitled to receive it.

28. The registering officer shall keep in a separate book a memorandum, in order of dates, of all deeds registered and refused registry, as follows :—

III of 1877

32. The registry book shall be inspected and countersigned by the Commissioner as often as may be found convenient.

33. In any case where registration is refused on the ground that the party who is said to have executed the deed denies his having done so, any party claiming under the deed may sue in the court of the Superintendent within three months of the order of refusal for a declaration of his right to have the deed registered The registering officer shall be no party to such suit, and a copy of his order of refusal, properly attested, shall be *primâ facie* proof that the reason of refusal to register was as therein described. The document in dispute shall be admissible as evidence in this suit, anything in these rules contained notwithstanding.

THE LAND.

TRANSFERS, PARTITIONS, AND SUB-LETTING.

34. All lands held for plough cultivation on lease from Government, under whatever rules they have been or may be granted, are subject to the condition that they cannot be sub-let or transferred, except on hereditary succession or with the consent of the Commissioner. No partitions can be made without the consent of the Commissioner. For a tenant to temporarily make over his holding to another person in the case of illness, incapacity, minority, absence on a journey or in the like exigency, is not to sub-let; but in no such case can the tenant recover from his substitute or trustee a higher rent than he has himself to pay.

CIRCLE DIVISIONS.

35. The Chittagong Hill Tracts comprise the following circles, the boundaries of which are well known and are not in dispute—

(*i*) the several Government forest reserves;

(*ii*) the Bohmong's circle, including the tract hitherto known as "Sungoo Subdivisional Khas Mahal;"

(*iii*) the Chakma Chief's circle, including the tract hitherto known as "Sadar Subdivisional Khas Mahal;"

(*iv*) the Mong Chief's circle.

TALUK DIVISIONS.

36. The 33 blocks which were formed in 1890 for the census of 1891 have been constituted permanent divisions and are called taluks. They lie as follows in the three circles :—

Bohmong's circle	18 blocks.
Chakma Chief's circle	9 "
Mong Chief's circle	6 "

MAUZAS.

37. The taluks are subdivided into mauzas. A mauza will ordinarily contain not less than one-and-a-half and not more than 20 square miles, including hill, wood, and

waste. Wherever there is plough cultivation a mauza will be formed, and its external boundaries laid down on the map. Wherever there is a permanent village, even without plough cultivation, a mauza will be similarly formed. The remaining mauzas will be formed as circumstances allow, and, till defined, will be known as the undefined mauzas.

ADMINISTRATION OF THE CIRCLES AND MAUZAS.

38. The three Chiefs—the Chakma Chief, the Bohmong, and the Mong Chief—are charged with the administration of the respective circles, and every person residing or cultivating within a circle is subject to the jurisdiction of its Chief, with the exception of Government officers and their families, traders and shop-keepers in bazars, and lessees of fisheries and *garjan kholas*. The existing headmen are in charge of the administration of the mauzas. Where they are wanted, headmen will be appointed by the Superintendent in consultation with the Chiefs and the inhabitants of the mauza. Every person, with the exceptions aforesaid, residing or cultivating within a mauza, will be subject to the authority of its headman.

COLLECTION OF THE RENTS.

39. The rents in each mauza will be paid to the headman. Every householder residing or cultivating within a mauza is liable to pay rent to the headman, and there may be no remission of that liability, unless sanctioned by the Superintendent. The headman will collect rents under the control and authority of the Circle Chiefs. The Chief and the headman will receive commission on the collections at such rates, respectively, as may from time to time be sanctioned by the Government.

ADMINISTRATIVE POWERS OF THE CHIEFS AND HEADMEN.

40. Except in the cases mentioned at the end of this rule, the Chiefs will regulate the affairs of their circles and the action of the headmen within them, with powers of fine, of enforcing restitution, and of imprisonment. Similarly, the headmen will regulate the internal affairs of their mauzas, with powers of fine up to Rs. 25, of enforcing restitution, and of detention till the Superintendent's orders are received. The Superintendent will have general revisional jurisdiction over the exercise of all these powers, and will continue to receive from the police information of the occurrence of cases.

Excepted cases referred to above.

(1) Offences against the State, against Government servants, or against public justice.

(2) Riots in which grievous hurt has been caused or deadly weapons have been used.

(3) The following serious offences against the person, namely, murder, culpable homicide, voluntarily causing grievous hurt, wrongful confinement, rape, abduction, kidnapping, and unnatural offences

(4) Extortion, robbery, dakaity, lurking house-trespass, or house-breaking when the property taken exceeds Rs. 500 in value.

(5) Forgery.

(6) Offences under Chapter IV of the Chittagong Hill Tracts Regulation, 1900.

(7) Any case or class of cases which the Commissioner may specify in this behalf.

THE RENT.

41. The rent is of four kinds, viz.,—

(i) the existing joom rent and *begar*,

(ii) the plough cultivation rent;

(iii) ground-rent for premises used for other than agricultural purposes (shops, &c.);

(iv) the grass and *garjan khola* rent.

JOOM RENT AND BEGAR.

42. (a) Every joomia, who has by custom to pay joom rent, must pay the joom rent for the Government to the Chief in whose circle he resides, to be collected by the headman within whose mauza he resides If any such joomia jooms in a different circle or mauza from that in which he resides, he must, in the case of a different circle, pay the full joom-tax for that joom in addition to what he has to pay to his Circle Chief; and in the case of a different mauza in the same circle, he must pay half the full joom rent to the headman of that mauza, in addition to the full rent which he has to pay to his own headman. Plough cultivation gives no exemption from joom-tax to a man who jooms.

(b) The joom book must show separately the jooms and joom-tax for each mauza.

THE PLOUGH RENT.

43. The gazetted officers of Government, the Chiefs, and the headmen may grant to any suitable person wishing to open plough cultivation the requisite authority to do so, specifying the terms.

The plough rent will be collected by the headman under the control and superintendence of the Chief, and it may be paid direct to the Government officers or through the Chief, as is found most convenient in different cases The headman may assign to any suitable raiyat as much land as it is within the raiyat's power to cultivate himself. For the first three years it will be rent-free. Thereafter it will be assessed by the Superintendent, and the rate once fixed will not be altered for 10 years The headman will frame a rent roll (*jamabandi*) for all plough cultivation in his mauza, which, when revised by the Superintendent, will form the basis of the demand. These rent-rolls will be examined, when possible, on the spot every year. Plough cultivation held under leases will, when not forfeited, be included in the rent-roll on the terms of the lease. When the lease conditions have been violated, the lease will be cancelled and the land settled with the actual cultivator as if no lease had been given.

NON AGRICULTURAL RENTS AND BAZARS.

44 The rents for non-agricultural sites will be fixed by the Superintendent, and when so fixed will be entered on the rent-roll and distributed in the same way as the plough cultivation rent. But this rule does not apply to the cases of bazars, which may be separated by the Superintendent from the mauza and settled by him, and managed either through the headman or direct, as he sees fit.

GRASS AND GARJAN KHOLA RENTS.

45. The grass *kholas* will be settled by the Superintendent as hitherto, either yearly or for periods of not more than 10 years in any case, and when settled their rents will be realised separately and will not be added to the rent-roll or distributed like the rents for plough cultivation and non-agricultural sites

SERVICE LANDS.

46. In every mauza 50 acres of the best arable land, in one block or in area or areas as nearly approaching 50 acres as may be practicable, will be demarcated, recorded, and set apart as the khas land of Government for the remuneration of the village officials, the headman, the patwari or karbari, if there is one, and the watchmen, if such are appointed, and will be assigned to such officers by the Superintendent to hold rent-free during their continuance in office. No headman may hold, as his remuneration, more than 25 acres of this land; but the rest of it, while unoccupied, may be placed in his charge under such temporary arrangements as the Superintendent sees fit to make. No officer shall have an indefeasible right to transfer such land, or to receive from the Government or from his successor any compensation for improvements made on the land; but the Commissioner may require a newly-appointed officer to pay to his predecessor reasonable compensation for unexhausted improvements.

KHAS MAUZAS OF CHIEFS.

47. With the sanction of the Commissioner, a Circle Chief may hold one or more mauzas in his circle as his khas mauza or mauzas, and in that case will be entitled to all the remuneration provided for the headman in addition to his remuneration as Chief, so long as he arranges properly for the performance of the duties of the headman and the mauza officers.

INVESTITURE OF THE CHIEFS AND APPOINTMENT AND DISMISSAL OF HEADMEN.

48. The investiture of the Chiefs is regulated by the Bengal Government. The headmen will be appointed by the Superintendent, in consultation with the Chiefs and the inhabitants of the mauzas, and may be dismissed by the Superintendent for misconduct or incompetence. This appointment is not hereditary; but a son, when competent, may be appointed to succeed his father.

MIGRATION AND MIGRATING DEFAULTERS AND ABSCONDERS.

49. Migration by cultivating raiyats from one circle to another, though not absolutely prohibited, is to be discouraged No cultivating raiyat may so migrate till he has discharged all dues owed by him within the circle and mauza from which he wishes to migrate; and the Chiefs and the headmen are empowered to detain the persons and property of such intending defaulters till the orders of the Superintendent are received. An absconder will not be permitted to re-settle within the circle from which he has absconded till he discharges all the dues for which he was liable when he absconded.

LANDS REQUIRED FOR PUBLIC PURPOSES.

50. Arable land may not be settled by the headmen so as to interfere with roads or paths, or the public convenience or the requirements of Government, and any settlements made in contravention shall be summarily cancelled. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer, who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be exaimned in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :— .

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the ful examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the fourth grade of Accountants, Public Works Department.

CORPORATION OF CALCUTTA.

LOAN NOTIFICATION.

THE Corporation of Calcutta are prepared, with the sanction of the Governor-General in Council given under section 2 (1) of the Local Authorities (Emergency) Loans Act, 1897, to open a debenture loan for Rs. 2.25,000 (two lakhs and twenty-five thousand) on the security of the rates, taxes and dues imposed and levied under the Calcutta Municipal Act, 1899.

2. The debentures will have a currency of (10) ten years, from the 1st July, and will bear interest at the rate of 4 per cent. per annum, payable on the 1st July and the 1st January of each year.

3. The form of the debentures will be that given in the Sixth Schedule of Act III (B.C.) of 1899.

4. No debentures will be issued for any sum less than Rs. 500, and above that amount debentures will be issued only for multiples of Rs. 100.

5. Tenders for the whole or any part of the above loan of Rs. 2,25,000 will be received by the Secretary to the Corporation up to 2 o'clock P.M. on Saturday, the 12th May 1900.

6. Each tender must be made out in the form annexed to this Notification and enclosed in a sealed cover addressed to the Secretary to the Corporation and superscribed "Tender for Municipal Loan of 1900-1901."

7. Each tender must be accompanied by an earnest deposit in Government promissory notes, Calcutta municipal debentures, currency notes or cheques for not less than 3 per cent. of the amount tendered.

8. When a tender is accepted, the earnest deposit, when made in currency notes or cheques, will be held as a payment in part of the amount tendered, and will bear interest at the rate of 4 per cent. per annum from the date of acceptance of the tender, provided that the whole amount tendered is paid up in the manner hereinafter prescribed; but no debenture will issue for the amount of the earnest deposit so long as the entire amount of the tender is not paid, but debentures may be issued for each instalment paid in full, the earnest deposit not being included in any but the last instalment.

9. The earnest deposits on tenders which may not be accepted will be returned on application, and no interest will be payable on such deposits. If an allotment after being made is not taken up, or the full amount allotted is not paid as hereinafter prescribed, the earnest deposit will be forfeited.

10. The rate at which a tender is made must be specified in rupees, or rupees and annas, but not in any fraction of an anna. If a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna. A tender in which the rate is not specified in rupees or rupees and annas will be rejected as null and void.

11. The whole amount of each allotment will be divided into three instalments as follows, payable into the Bank of Bengal:—

Instalment I.—As near as possible to 40 % payable on 25th May 1900.
Ditto II. Ditto 30 % ditto 8th June 1900.
Ditto III. Ditto 30 %* ditto 22nd June 1900.

N.B.—The words "as near as possible" are used in this paragraph for the purpose of making each instalment an exact multiple of Rs. 100 for debentures in excess of Rs. 500.

12. Parties whose tenders are accepted will have the option of paying all or any of the instalments before the dates specified above, and will receive interest from the date of such payment.

13. Anticipation interest will be paid on all instalments from the respective dates on which such instalments are paid into the Bank of Bengal to the 30th June 1900.

14. In the case of two or more tenders at the same lowest rate accepted, a *pro rata* allotment will be made, but no such allotment will be issued if the amount thus allottable on any tender is less than Rs 500.

15. A minimum having been previously fixed, tenders will be opened by the Special Committee for loans at 2-30 P.M on Saturday, the 12th May 1900, at the Municipal Office.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product, even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo. pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G.; Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI (which consists of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI); but a tenth volume has been issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index is practically a Glossary of the Vernacular and European names of the plants, animals, and minerals of India, and, as such, is a work of reference, which, it is hoped, will prove of considerable value.

Index to ditto ditto, 8vo. Rs. 2. (4a.)
The above is out of stock.

THE British Admiralty has given notice (No. 182 of 1900) that a dangerous reef, indicated by a strong tidal ripple, extends from the western edge of Guinapak rocks for about 3 miles in a N.N.E. direction. The sea would probably break over this reef in bad weather.

WITH reference to Notice to Mariners No 201, dated 7th October last, issued by this office, the British Admiralty has given further notice (No. 184 of 1900) that the red buoy moored $7\frac{3}{10}$ miles N. 3° E. of cape Inyack lighthouse, and marking the Hope shoals, has disappeared.

Pilots can be obtained from, and discharged to, this hulk.

CHINA SEA—VEREKER BANK.

New bank reported south-west of Vereker bank.

THE British Admiralty has given notice (No. 185 of 1900) that a sounding of 32 fathoms, fine sand and blue mud, was obtained to the south-westward of Vereker bank in approximately lat 20° 40′ N., long. 115° 18′ E., and another cast of 65 fathoms in approximately lat. 20° 48′ N., long. 115° 9′ E.

From this it would appear probable that another bank exists in this locality, but as the current experienced by the *Solace* was strong, and observations were not obtained when the bank was struck, its position must be considered doubtful.

This Notice affects the following Admiralty Chart :—China sea, Nos. 1263, 2661b : Also, China Sea Directory, vol. III, 1894, page 222.

AUSTRALIA, EAST COAST—INNER ROUTE.

Shoal eastward of Howick island.

THE British Admiralty has given notice (No. 187 of 1900) that the Master of the S.S. *Karaweera* has reported that his vessel touched on a shoal with a depth of about 12 feet over it, and said to be situated with the summit of Howick island (186 feet) bearing W. by N. ½ N., distant 7½ miles. The incident occurred at night.

In 1858 H.M.S. *Megæra*, when running for an anchorage under Howick island, passed about 200 yards northward of what appeared to be a pinnacle rock on which the depth was estimated to be 6 feet, and stated to be in a position with the southern Howick island bearing W. ¾ N., distant 4½ miles. As a subsequent search failed to find this rock, it was removed from the Charts.

Although the area in the vicinity of these dangers has been recently re-examined by H. M. Surveying Vessel *Dart* without success, it would appear very probable that a shoal exists, and it has been therefore temporarily placed on the Admiralty Charts midway between the two positions and marked "Megæra P. D.," in approximately lat. 14° 33′ 10″ S., long. 145° 5′ 25″ E.

Approximate position, lat. 45° 48′ 40″ S., long. 166° 35′ 15″ E.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

RULES FOR THE APPOINTMENT OF SUB-INSPECTORS OF POLICE.

THE next divisional examination of candidates to fill vacancies in the rank of Sub-Inspector of Police will be held on the 18th and 19th June 1900 at the following centres:—at Calcutta (Senate House) for the Presidency, Rajshahi and Burdwan Divisions; at Bankipore for the Patna, Bhagalpur and Chota Nagpur Divisions; at Dacca for the Dacca and Chittagong Divisons; and at Cuttack for the Orissa Division. The following classes of candidates will be admissible to the examination:—

(*a*) Persons who have passed the Entrance Examination of the Calcutta, Allahabad or Punjab University, provided they are not less than 21 nor more than 25 years of age on the 30th June.

(*b*) Persons now serving as head-constables and writer-constables in the police who have obtained the permission of the District Magistrate to appear at the examination, provided that they are not more than 30 years of age, and are of not less than two years' standing in the Department. This permission will only be given to persons who satisfy the conditions laid down in Rule 2

2. No person will be deemed qualified who does not satisfy the following conditions:—

I.—That he has no disease, constitutional affection or bodily infirmity unfitting him, or likely to unfit him, for police duties, and that he is up to the physical standard prescribed by Government circular No. 44361., dated the 7th December 1892.

NOTE.—"Stuttering or Stammering" is a constitutional defect, and represents a physical disqualification.

II.—That he is of good moral character.

III.—That he belongs to a respectable family.

IV.—That he produces a certificate of ability to ride signed by a District Officer.

3. Applications for permission to appear at the examination must be submitted, not later than one month before the date fixed, to the Magistrate of the district in which the candidate resides, stating the place at which he desires to appear for examination. Each application from class (a) candidates must be accompanied by a fee of Rs. 5. All candidates will be required to satisfy the conditions specified in Rule 2 above. The certificate of health should be signed either by the Civil Surgeon of the district in which the candidate ordinarily resides, or in Calcutta by one of the Professors of the Calcutta Medical College. Forms of application are available in the offices of District Superintendents of Police.

The Magistrate should require a personal identification of each candidate by some known person, whose name should be recorded, and satisfy himself that the certificate* of respectability and moral character refers to the individual applying for permission to appear at the examination, and that these certificates are given by responsible and competent persons, whose opinion may be trusted. It is particularly important that candidates be of reputable parentage and antecedents. The candidate should be sent to the District Superintendent for a certificate as to physical fitness. This certificate should contain the applicant's descriptive roll, thumb impression, signature and address for purposes of identification. The District Superintendent will then obtain a health certificate, the fee for which will in all cases be Rs. 4, from the Civil Surgeon, and after seeing that all the certificates are in order send the applicant with his certificates to the Magistrate, who will, after subjecting the candidate to an examination in riding and noting the fact, grant a written permission to appear at the examination. To ensure thorough enquiry regarding a candidate's antecedents, the District Superintendent should issue verification rolls in the form prescribed in the Bengal Police Code, and the candidate should be informed that his appointment will be contingent on enquiries proving satisfactory.

BENGAL POLICE

* I hereby certify that I have known ——————— for ——— years, and from my own personal knowledge of his character and disposition I am of opinion that he is a steady, well-behaved young man, and I know him to be of good moral character.

Place ——————— } *Signature* ———————
Date ——————— } *Designation or profession* ———————

As these certificates form the verification rolls of candidates, they should be very carefully examined and enquiries made when necessary. A note should be taken of the names of candidates whose certificates do not cover the period immediately preceding the examination.

The above papers with the Treasury receipt for the examination fee, which should be paid into the Treasury, will be forwarded without delay by the Magistrate of the district in which the candidate resides to the Magistrate of the centre at which the candidate wishes to be examined.

Candidates who have been permitted to appear will attend before the Examination Committee on the day preceding the examination; the place and hour of attendance should be ascertained from the Magistrate of the centre at which the candidate will appear. The Examination Committee will then compare the descriptions, thumb impressions (duplicate impressions being taken for the purpose, if necessary), and signatures, and satisfy itself about the identity of the person appearing.

At the examination a candidate will be required to sign the papers in every subject, writing his father's name and his own address on them to avoid confusion arising out of a similarity of names.

After the result of the examination is known, the certificates of passed candidates will be forwarded to the Principal of the Police Training School, Bhagalpur, and will then be treated as verification rolls.

The certificates of unsuccessful candidates will be returned, if asked for, within two months, or destroyed at the end of that period

4. The subjects of examination will be as follows:—

I.—Dictation, Letter-drafting, Précis-writing, and a short translation from Bengali, Uriya or Hindi into English. Europeans and Eurasians will be allowed to choose one out of these three languages to be examined in. II.—Paper on general knowledge. The questions will be set so as to test the general information and intelligence of candidates.

III.—Mathematics, including Euclid, Books I—IV, Arithmetic and Algebra, and account-keeping.

IV.—Law, including the Penal Code, the Criminal Procedure Code, and the Evidence Act.

N.B.—Class (*b*) candidates will be exempted from passing in Euclid and Algebra, alternative questions in Arithmetic being given.

5. The marks will be given on the following scale :—

1.	Dictation and language	... 200
2.	General knowledge	... 200
3.	Mathematics	... 200
4.	Law	... 200

6. The number of appointments which will be offered for competition at each centre will be notified later.

7. After the results of the examination have been ascertained, a list will be prepared of the candidates selected for appointment. Those who have not obtained half marks in dictation and language and one-third marks in the aggregate of the remaining papers may be struck out as ineligible for appointment. Of the remaining candidates, a list will then be composed as follows :—(a) one-half of the candidates who stand highest on the list in order of merit; (b one-half of candidates selected from among those candidates who have obtained not less than one-third of the marks. At least two-thirds of the appointments will, if qualified candidates are available, be given to outsiders.

8. Natives of Bengal Proper will be eligible for appointments in all districts where Bengali is the vernacular of the district. Natives of Bihar will be eligible for appointments in districts where Hindi is the vernacular, and natives of Orissa for appointments in districts where Uriya is the vernacular. Selected candidates will be liable to be transferred to any district.

9. Selected candidates on appointment will undergo a 20 weeks' course of instruction at the Bhagalpur Police Training School. This course will include drill, elementary surveying, anthropometry, and instruction in prosecuting cases in Magistrates' Courts. At the end of the 20 weeks all probationers obtaining a certificate of proficiency will be posted to districts and receive appointments in due course as 5th grade Sub-Inspectors. During the period of probation candidates will receive Rs 20 a month as salary; on being passed out of the Training School, they will receive Rs. 30 a month as salary. Candidates who fail to display due diligence during their period of probation will be liable to lose their appointments.

CHINA SEA—VEREKER BANK.

New bank reported south-west of Vereker bank.

THE British Admiralty has given notice (No. 185 of 1900) that a sounding of 32 fathoms, fine sand and blue mud, was obtained to the south-westward of Vereker bank in approximately lat. 20° 40′ N., long. 115° 18′ E., and another cast of 65 fathoms in approximately lat. 20° 48′ N., long. 115° 9′ E.

AUSTRALIA, EAST COAST—Inner route.

Shoal eastward of Howick island.

The British Admiralty has given notice (No. 187 of 1900) that the Master of the S.S. *Karaweera* has reported that his vessel touched on a shoal with a depth of about 12 feet over it and said to be situated with the summit of Howick island (186 feet) bearing W. by N. ½ N., distant 7½ miles. The incident occurred at night.

In 1858 H.M.S. *Megæra*, when running for an anchorage under Howick island, passed, about 200 yards northward of what appeared to be a pinnacle rock on which the depth was estimated to be 6 feet, and stated to be in a position with the southern Howick island bearing W. ¾ N., distant 4½ miles. As a subsequent search failed to find this rock, it was removed from the Charts.

Although the area in the vicinity of these dangers has been recently re-examined by H. M. Surveying Vessel *Dart* without success, it would appear very probable that a shoal exists, and it has been therefore temporarily placed on the Admiralty Charts midway between the two positions and marked "Megæra P. D.," in approximately lat. 14° 33′ 10″ S., long. 145° 5′ 25″ E.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·2 lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

N.B.—In the column "miles recorded" the movement of the wind from 8 A.M. of the day for which it is shown to 8 A.M. of the following day is given.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday the 2nd and 3rd July 1900, at 10-30 A. M.

SUBJECTS.	Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity) ...	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (a) the whole	60	30
Book-keeping (b) mercantile	100	50
Total ...	600	...

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.
(b) "Book-keeping" by Ball and Hamilton.
"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediataly preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the ful examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the fourth grade of Accountants, Public Works Department.

CIVIL ENGINEERING COLLEGE, SIBPUR.

AGRICULTURAL DEPARTMENT.

Session 1900-1901.

UPPER CLASS.

FOR admission to this class, an applicant must have one of the following qualifications:—

(i) He must have passed the F.E. examination of the Calcutta University and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.

(*ii*) He must have passed the B.A. examination of the Calcutta University by the B Course, or possess other sufficient educational qualifications, be under 23 years of age, and in addition have received a nomination from the Bengal Government.

(*iii*) He must have had a general education qualifying him to follow the instruction in the Upper Agricultural class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on the passed students under rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application is given in Appendix A. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the 5th November. The course of instruction in the Upper Agricultural class will extend over two years.

Senior scholarships held by students when passing the F.E. examination are tenable in the Agricultural Department.

One graduate scholarship of Rs. 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Two appointments annually are assigned to students holding a fully signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for this appointment will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Holders of fully signed Agricultural diplomas, who do not get the guaranteed appointments referred to in rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honour the Lieutenant-Governor to be otherwise suitable for admission to these services.

Each student in the Upper Agricultural Department will be required to pay an admission fee of Rs. 10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E. examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (*iii*). The tuition fees for these students will be Rs. 8 a month.

Nominations

Applicants for admission who require nominations under rule 3 (*ii*) and (*iii*) will apply for nominations through the Principal. The form of application for nomination is given in Appendix C.

Further particulars will be supplied on application to the Principal.

Simla, the 11th May 1900.

No. 1257.—The Royal Warrant for the institution of the Kaisar-i-Hind Medal is, by the direction of His Excellency the Viceroy and Governor General, published for general information :

VICTORIA BY THE GRACE OF GOD OF THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND QUEEN, DEFENDER OF THE FAITH, EMPRESS OF INDIA.

To all to whom these presents shall come.

Greeting.—WHEREAS We, taking into Our Royal consideration that there do not exist adequate means whereby We can reward important and useful services rendered to Us in Our Indian Empire in the advancement of the public interests of Our said Empire, and taking also into consideration the expediency of distinguishing such services by some mark of Our Royal favour: Now for the purpose of attaining an end so desirable as that of thus distinguishing such services aforesaid, We have instituted and created, and by these presents for Us, Our Heirs and Successors, do institute and create, a new Decoration,—to be designated as hereinafter described,—and We are graciously pleased to make, ordain, and establish the following Rules and Ordinances for the Government of the same which shall from henceforth be inviolably observed and kept:

Firstly.—It is ordained that this Decoration shall henceforth be styled and designated "The Kaisar-i-Hind Medal for Public Service in India."

Secondly.—It is ordained that any person without distinction of race, occupation, position, or sex, shall be eligible for this Decoration who shall have distinguished himself (or herself) by important and useful service in the advancement of the public interest in India.

Thirdly.—It is ordained that there shall be two classes of the Decoration to be styled respectively "The Kaisar-i-Hind Medal for Public Service in India" of the First Class, and "The Kaisar-i-Hind Medal for Public Service in India" of the Second Class.

Fourthly.—It is ordained that awards of the Medal of the First Class shall be made by Us, Our Heirs and Successors, by Warrant under Our Sign Manual and countersigned by One of Our Principal Secretaries of State, and such awards shall only be made on a recommendation to Us by Our Secretary of State for India.

Fifthly.—It is ordained that awards of the Medal of the Second Class shall be made by Our Governor-General of India for the time being.

Sixthly.—It is ordained that the Medal shall consist of an oval shaped Badge or Decoration—in gold for the First Class and in silver for the Second Class—with Our Royal Cypher in the centre on one side and on the reverse the words "Kaisar-i-Hind for Public Service in India," and that it shall be suspended on the left breast by a dark blue ribbon.

Seventhly.—It is ordained that the names of those persons to whom a Medal of either class may be awarded shall be published in the *Gazette of India* and in the Gazette of the Local Government under the jurisdiction of which the service was rendered, and shall be entered in all Civil and Official lists, and that a registry of such names shall be kept in the Office of the Home Department of the Government of India.

Eighthly.—It is ordained that if any one, after having received either of the Medals, again renders such service as, if he had not received such Medal, would have entitled him to it, such further service shall be recorded by a bar attached to the ribbon by which the Medal is suspended: and for every such additional service an additional bar may be added.

Ninthly.—In order to make such additional provisions as shall effectually preserve pure this honourable Decoration, it is ordained that if any person on whom the Medal of the First Class is conferred be guilty of any crime or disgraceful conduct which in Our Judgment disqualifies him for the same, his name shall, by an especial Warrant under Our Sign Manual, to be countersigned by One of Our Principal Secretaries of State, be forthwith erased from the lists of those upon whom the said Decoration shall have been conferred and his Medal forfeited and returned to Us, Our Heirs and Successors: and in the case of those who have been awarded Medals of the Second Class, such erasure of their names from the lists of those upon whom the said Decoration shall have been conferred and forfeiture of their Medals shall be effected under the Order of Our Governor-General of India for the time being, to whom their Medals shall be returned. And every person to whom the said Medal is given shall, before receiving the same, enter into an engagement to return the same, if his name shall be erased as aforesaid.

Provided that We, Our Heirs and Successors, shall at all times have power to restore the Medal of the First Class to any person who may have been deprived of it when circumstances render such restoration just and expedient, and that in like circumstances Our Governor-General of India for the time being shall have power by his Order to restore the Medal of the Second Class to any person who may have been deprived of it.

Lastly.—We reserve to Ourselves, Our Heirs and Successors, full power of annulling, altering, abrogating, augmenting, interpreting, or dispensing with these Regulations or any part thereof by a Notification under Our Royal Sign Manual.

GIVEN at Our Court at St. James's this tenth day of April One thousand nine hundred and in the sixty-third year of Our Reign.

1. No connection of houses, holdings or lands with the Municipal water-supply mains or pipes or existing private pipes shall be made without the written permission of the Municipal Commissioners previously obtained.

2. The Municipal Commissioners may allow connections, so long as the supply permits, for domestic purposes only under the following conditions:—

(1) The application to be made on proper form.

(2) The communication pipes to be capable of withstanding a pressure of 400 feet of water, unless otherwise required by the Municipal Engineer.

(3) Every communication pipe to be connected to the Municipal pipe by a ferrule and screw-coupling to be supplied by the Municipal Commissioners at fixed prices, to be paid for by applicant.

(4) No communication pipe to open through a drain so as to interfere with the free action of the drainage.

Such cock to be enclosed in a masonry covered box capable of being locked; the keys of both stop-cock and lock shall remain with the Municipal Commissioners.

(6) No connection to be made with the Municipal pipes or existing private pipes, except by the Municipal Engineer or such Inspector or Sub-officer as he may authorise in writing.

5. *Adjustment of discharge of stop-cocks.*—As far as possible the stop-cock shall be adjusted by the Municipal Engineer, so that the discharge shall be in accordance with the quantity of water allowed for the water-rate paid.

Where meters are provided this will not be necessary.

6. The number of taps in a house or holding shall be fixed according to the annual valuation of the premises as follows:—

Annual valuation of holding.			Number of taps.
Under	Rs.	300	1
From over	,,	300 to Rs. 800	2

7. If a larger number of taps be required than is allowed under the preceding bye-law, a meter must be provided at the cost of the owner or occupier.

8. The Municipal Commissioners reserve to themselves the right to determine the size of the pipes, ferrules and taps and the number of taps to be allowed and used for houses, holdings and lands.

9. The size of the ferrules to be allowed shall be regulated by the annual value of premises in accordance with the following scale:—

For a house or premises of an annual value—			Diameter of ferrule.

,, ,,	,, 800 to 1,000	... ...	¾"

10. The Municipal Commissioners reserve to themselves the right of cutting off connections and closing up pipes where the number of taps is in excess of the allowance noted above. Provided that no connections should be cut off under this rule until three clear days after service of notice on the occupier or on the owner or his local agent, if the house be unoccupied.

11. On receipt of an application for work to be carried out by the Municipal Commissioners, an estimate of the cost of the connections, etc., shall be prepared by the Municipal Engineer and submitted to the applicant, who, if he approves of the estimate, will be required

to deposit the cost and the Engineer's fees before the work is undertaken, and accept all the conditions of these rules.

12. It must be distinctly understood that, when the Municipal Commissioners lay the pipes on behalf of owners or of occupiers, such owners or occupiers will be responsible for any damage or repairs to, or stoppage of, the pipes, after the same have been handed over by the Municipal Engineer.

13. No ferrule shall be inserted in the main supply-pipe except in the presence of an officer appointed by the Municipal Commissioners for such purposes.

14. The repair, alterations, removal, or extension of all communication pipes and fittings shall be undertaken with the permission of the Commissioners and under the inspection and direction of the officer authorised by them in that behalf, and not otherwise.

15. A special rate shall be fixed and charged by the Municipal Commissioners for water required for manufactories, gardens or other than domestic purposes.

NOTE.—By garden is not meant small patches or a few plants in the garden or in pots, but lawns and flower, vegetable or other gardens requiring considerable supplies.

16. The Municipal Commissioners reserve to themselves the right, in case of necessity to restrict the hours during which water will be available.

17. When a holding has already a water connection and a stop cock and the owner or occupier of such holding refuses to deliver up the key of the stop-cock to the Municipal Commissioners, and give free access to the stop-cock, when it is within the premises, to the officer of the Municipality, the Commissioners may cut off the water from the holding by a stop-cock of their own until such time as the owner or occupier pays all expense incurred by the Municipality.

18. When an existing connection with a holding has no stop-cock attached to it, the owner or occupier of such holding shall provide a stop-cock and necessary fittings, and deliver over the key to the Municipal Commissioners. Should he decline to do this, the Municipal Commissioners may put on a stop-cock and cut off the water from the holding until the owner or occupier refunds the Municipal Commissioners all expenses incurred in affixing the stop-cock.

CHINA SEA—VEREKER BANK.

New bank reported south-west of Vereker bank.

THE British Admiralty has given notice (No. 185 of 1900) that a sounding of 82 fathoms, fine sand and blue mud, was obtained to the south-westward of Vereker bank in approximately lat. 20° 40′ N., long. 115° 18′ E., and another cast of 65 fathoms in approximately lat. 20° 48′ N., long. 115° 9′ E.

From this it would appear probable that another bank exists in this locality, but as the current experienced by the *Solace* was strong, and observations were not obtained when the bank was struck, its position must be considered doubtful.

AUSTRALIA, EAST COAST—INNER ROUTE.

Shoal eastward of Howick island.

THE British Admiralty has given notice (No. 187 of 1900) that the Master of the S.S. *Karawcera* has reported that his vessel touched on a shoal with a depth of about 12 feet over it and said to be situated with the summit of Howick island (186 feet) bearing W. by N. ½ N., distant 7½ miles. The incident occurred at night.

In 1858 H.M.S. *Megæra*, when running for an anchorage under Howick island, passed, about 200 yards northward of what appeared to be a pinnacle rock on which the depth was estimated to be 6 feet, and stated to be in a position with the southern Howick island bearing W. ¾ N., distant 4½ miles. As a subsequent search failed to find this rock, it was removed from the Charts.

Although the area in the vicinity of these dangers has been recently re-examined by H. M. Surveying Vessel *Dart* without success, it would appear very probable that a shoal exists, and it has been therefore temporarily placed on the Admiralty Charts midway between the two positions and marked "Megæra P. D.," in approximately lat. 14° 33′ 10″ S., long. 145° 5′ 25″ E.

RECEIPTS.

2. *Part I.—Jetties.*—The receipts are estimated at Rs. 1,80,000 more than those of the preceding year. The increase is under the heads "jetty charges," "petroleum wharf" and "tea warehouse."

3. *Part II.—Inland Vessels Wharves.*—The receipts are estimated at Rs. 15,000 more than those of the previous year and are based on actuals.

4. *Part III.—Strand Bank Lands.*—There is an increase of Rs. 9,000 in the estimated receipts, as compared with those of the previous year. The increase is based on actuals.

5. *Part IV.—Port or Harbour Master's Department.*—The receipts are estimated at Rs. 15,186 less than those of the previous year. The decrease which is based on actuals is under the heads "mooring hire" and "receipts from Moyapore magazine."

6. *Part VI.—Railway.*—The earnings are estimated at Rs. 20,000 more than those of the preceding year, and the increase is under the head "Railway." The figures for Shalimar Branch line remain the same as last year.

7. *Part VII.—Port Approaches.*—There is a falling off in the receipts by Rs. 6,860 as compared with those of last year, which is due to less receipts from interest on securities which will have to be sold to cover the cost of purchasing the *Retriever* in order to replace the *Resolute* which was lost at Diamond-Harbour in August last.

8. *Part VIII.—Kidderpore Docks.*—The following figures exhibit the receipts under this head:—

		Rs.
Receipts from graving docks	... ...	1,55,000
Ditto landing charges on imports	... ...	30,000
Ditto shipping charges on exports	... ...	14,30,000
Ditto terminal charges	... ...	1,40,000
Ditto hire of wagons	... ...	40,000
Ditto rent and miscellaneous	... ...	31,000
Proportion of receipts from towing vessels by hopper barges	... ...	1,500
Total	...	18,27,500

As compared with the year 1899-1900 there is a net falling off in the receipts by Rs. 44,000. The gross decrease, which amounts to Rs. 90,000, falls under the heads of "Landing charges on imports," "Shipping charges on exports" and "Terminal charges." The decrease under landing charges on imports is explained to be due to the Salt golahs being full up causing a restriction in the imports for the year, while the landing of other imports is only allowed under very special circumstances.

The decrease under "Shipping charges on exports" and "Terminal charges" is due to the receipts of last year having been over-estimated. The receipts of the current year are based on the actuals for nine months of last year with an allowance of Rs. 3,00,000 for an increase of traffic. There is an increase of Rs. 46,000 under the heads "Receipts from graving Dock," "Hire of Wagons" and "Rent and Miscellaneous."

9. *Special Tolls.*—The estimated receipts from the special toll amount to Rs. 10,00,000 and have been based on 9 months' actuals for 1899-1900.

EXPENDITURE.

10. *Part I.—Jetties.*—The expenditure estimated amounts to Rs. 13,05,657 against Rs. 12,65,941 of the preceding year. The largest item of increase is under the head of "Repairs."

11. *Part II.—Inland Vessels Wharves.*—In the estimate for the last year Rs. 4,79,614 were provided for against Rs. 4,80,355, the estimate for the year under review. The largest items of increase are under heads "Salaries" and "Working Expenses."

12. *Part III.—Strand Bank Lands.*—There is a small net increase of Rs. 507 which is on account of an increase of "Salaries."

13. *Part IV.—Harbour Master's Department.*—Under this head also there is a slight increase, viz., of Rs. 462. This is the net increase, but the chief increase is under the head "Salaries," and the largest item of decrease under the head "Repairs &c., for Moyapore Magazine."

14. *Part VI.—Railway.*—The estimate for the year under review provides for Rs. 4,03,641 against Rs. 3,80,216 of the preceding year, or a net increase of Rs. 23,425, which is chiefly under the heads "Salaries" and "Working Expenses." Under the former head the increase is due to raising the wages of gatemen and to the employment of additional gatemen, and under the latter head to an increased provision for repairs to locomotives and wagons, to maintenance of railway and to part salary of an Assistant Permanent-way Inspector.

15. *Part VII.—Port Approaches.*—There is a net increase of Rs. 6,630, as compared with the estimate of the previous year. The only item that shows an increase is under head "salaries of officers and crew," while there

are decreases under other heads, the principal item of decrease being under head "repairs to vessels."

16. *Part VIII.—Kidderpore Docks.*—The amount provided for in the Budget of 1899-1900 was Rs. 29,11,232, while that provided for in the Budget for the year under review is Rs. 31,36,901 or a net increase of Rs. 2,25,669. The chief items of increase are under heads "Interest and Sinking Fund on loans" Rs. 1,28,817, "Salaries of Traffic Establishment" Rs. 22,343, "Working expenses" Rs. 51,632 and "Repairs to buildings" Rs. 20,000. While the receipts show a net decrease of Rs. 44,000, the expenditure shows a net increase of Rs. 2,25,669. The cause of decrease in receipts has been explained in paragraph 8 of this Resolution.

CAPITAL ACCOUNT.

17. As noticed in the first paragraph, the estimates take into account the receipts and charges under Capital.

The receipts which amount to Rs. 48,00,000 are made up as follows:—

	Rs.	Rs.
Contributions from revenue	1,20,110	
Stock charged to works	5,00,000	
		6,20,110
Sale of land at Shalimar for the use of the Bengal-Nagpur Railway	9,81,045	
Less amount received to end of 1900-1901 ...	7,50,000	
		2,31,045
Probable balance of Capital Fund on 1st April 1900	......	4,98,845
Debenture loan to be raised during 1900-1901 ...	25,50,000	
Ditto ditto ...	9,00,000	
		34,50,000
Total ...		48,00,000

Of the debenture loans of Rs. 34,50,000, the first loan of Rs. 25,50,000 will be under an existing sanction of the Government of India, but the second loan of Rs. 9,00,000 is to be a new loan for which the Commissioners will have to obtain sanction.

18. The Capital budget provides for an expenditure of Rs. 48,00,000 on works in progress and proposed.

The works proposed for which no sanction has yet been accorded are—

	Rs.
200 additional wagons	5,00,000
4 locomotives	1,00,000
3 spare boilers	24,000
Additional sheds for docks	2,00,000
Minor works	1,51,175
Total ...	9,75,175

19. Subject to the above remarks, the Lieutenant-Governor, in pursuance of the powers vested in him by section 71 of Act III (B.C.) of 1890, approves of the estimate of the Income and Expenditure of the Commissioners for the year 1900-1901.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Offg. Secy. to the Govt. of Bengal.

FINAL REPORT ON THE WHEAT CROP OF BENGAL, 1899-1900.

THE following is published for general information.

F. A. SLACK,

The 13th May 1900. *Offg. Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Wheat Crop of Bengal, 1899-1900.

Explanatory.—The present report furnishes estimates of the area and outturn of the wheat crop in all the wheat-growing districts of Bengal, and gives some statistics of the exports of wheat from these districts to Calcutta during the past year.

As in previous years, a summary is also given in the report of the harvests of the year 1899-1900, and an abstract statement is annexed to it of reports received from District Officers on the subject of the fluctuations in the prices of food-grains during the year, and of the present condition of the stock of food-grains in each district.

The district returns have been compiled in the same form as that used for the preliminary forecast. In future, this form will be adopted for all crop forecasts issued by this Department, and, as in the present report, a subsidiary statement will be added giving an estimate of the total outturn expected from the crops dealt with. This change in form has been made in consultation with the Director-General of Statistics and the Chamber of Commerce, and with the approval of Government, and will, it is hoped, ensure greater accuracy in the returns by securing greater simplicity.

2. *Character of the season.*—The season was less favourable in the year under report than in the previous year. There was no repetition of the high floods, which proved so beneficial to the wheat crop of 1898-99. Want of rain was also felt at the time of sowing in some districts, noticeably in those of the Chota Nagpur Division, and this led to a contraction in the area sown. The rainfall in September was general, except in Orissa and Chota Nagpur, where it was insufficient. In October, it was deficient everywhere, except in East Bengal and Orissa, where it was excessive.

In November and December there was scarcely any rain in the wheat-growing districts, excepting a few light showers in the Darjeeling hills In January, the rainfall was below the normal in all parts of the Province, except in Bihar and Chota Nagpur, where the fall was about four times the average for the month. The rain this month was accompanied by hail, which did considerable damage in some parts of Bihar. In February, the rainfall was above the normal in Lower Bengal and below the normal in Bihar, Orissa and Chota Nagpur. In March, the fall was fairly general in all parts of Bengal. The season on the whole was not favourable to the wheat crop. The rainfall was irregular and badly distributed, and in a few districts the crop suffered also from hailstorms.

3. *Area sown.*—Since the submission of the preliminary forecast, new estimates of the normal area have been received from Jessore, Patna, Darbhanga and Bhagalpur and thus the total normal area is now shown as 1,580,700 acres, against 1,578,100 acres shown in the preliminary forecast. Last year's and this year's figures have also been revised in some cases. The total area cultivated in wheat in 1899-1900, as now estimated by District Officers, amounts to 1,555,800 acres, against 1,582,500 acres estimated to have been cultivated in the previous year. The decrease, as reported in the preliminary forecast, is due to unseasonable weather at the time of sowing. This year's area, however, is more than the average of the past six years, and is but slightly below the normal.

4. *Outturn.*—The crop appears to have deteriorated in 15 districts since the publication of the preliminary forecast. In 16 districts, the estimates remain unchanged, and in five districts only, viz., Birbhum, Champaran, Darbhanga, Purnea, and Manbhum, has the outturn exceeded the original estimate. The general outturn for the Province has fallen somewhat short, therefore, of that foreshadowed in the preliminary forecast, and may now be estimated as 95 per cent. of a normal crop. This estimate falls short of that of the crop of the previous year by 10 per cent. The gross outturn of 1899-1900 is estimated at 572,600 tons, against 656,400 tons estimated for the crop of 1898-1899.

5. *Summary of harvests.*—The following brief account of the harvests of the year 1899-1900 has been summarized from the marginally-noted reports published by this Department.

(1) Final Report on the *bhadoi* crops in Bengal, 1899, dated the 19th December 1899.
(2) Final Report on the winter rice crop in Bengal, 1899, dated the 4th December 1899.
(3) Note on the outturn of the *rabi* crops in Bengal for 1899-1900, dated the 2nd April 1900.

Bhadoi or autumn crops.—The season was altogether unfavourable to the *bhadoi* crops, the rainfall being both excessive and badly distributed. In a few districts, the crops also suffered from insect pests. The total area cultivated in all kinds of *bhadoi* crops amounted to 15,584,000 acres, as compared with 16,312,100 acres, estimated to have been cultivated in 1898. The area under *bhadoi* food-crops showed a decrease of 799,600 acres, whilst the area under *bhadoi* non-food-crops showed an increase of 71,500 acres, the latter result being mainly due to the extended cultivation of jute. The final estimate of the actual outturn of all kinds of *bhadoi* crops was 70 per cent. of a normal crop.

Winter rice.—Although the rainfall was generally excessive and unevenly distributed, the outturn was fair, and it is estimated that a 95 per cent. crop was harvested in the Province as a whole. The total area cultivated amounted to 31,326,600 acres, against 31,568,300 acres returned for the crop of the previous year. The decrease was chiefly due to excessive rain at the time of transplantation in low-lying areas, and also, to a small extent, to the cultivation of jute in lands sown in the previous year with rice.

Rabi or cold-weather crops.—The season just closed was not on the whole favourable to the *rabi* crops, and was disastrous to them in parts of Chota Nagpur. The area cultivated in all kinds of *rabi* crops was returned as 13,840,000 acres, as compared with 14,390,300 acres sown in 1898-99. The area under *rabi* food-crops was estimated at 10,036,000 acres, against 10,278,000 acres in the previous year, and that under *rabi* non-food-crops at 3,804,000 acres, as compared with 4,112,300 acres. The decrease in all cases was due to want of sufficient rain at the time of sowing. The outturn of the *rabi* crops was returned as 87 per cent. of a normal crop.

Taking all the harvests of the year together, it would thus appear that the produce of food-grains has fallen slightly below the normal. Angul and the Khondmals and the districts of Chota Nagpur (excepting Manbhum) suffered most from the unseasonable weather, while the outturn of all crops in Shahabad was also poor.

6. *Food stocks and prices of food-grains.*—After the good harvest of the winter rice crop of 1898, prices which, at the beginning of that year, ruled higher than the normal, fell considerably. During the year under report, they rose again in some districts, owing partly to the export of food-grains to the famine-stricken provinces and partly, though to a very small extent, to the failure of the local crops.

Taking the Province as a whole, however, the rise was barely appreciable. The year's supply of food-grains is reported to have fallen short of the average in Chota Nagpur, Orissa and in some districts of Bihar, but the stocks of previous harvests are yet generally plentiful, so that, in spite of slightly deficient harvests in the current year, the Province as a whole has at present plenty of food stuff in hand.

7. *Exports of wheat to Calcutta.*—From the reports received from District Officers, as well as from the trade statistics given in the margin, it is evident that there has been a considerable increase during 1899 of the exports of wheat to Calcutta from Bengal and Bihar. This is, no doubt, chiefly due to the excellent wheat crop reaped in the beginning of the year 1899, and to the rise in prices caused by the scarcity in other parts of India. Although, in ordinary circumstances, a decrease is anticipated in the current year's exports from Bengal and Bihar, as compared with those of last year, there is every reason to hope that that decrease will be small.

Imports of wheat into Calcutta from the calendar years 1890 to 1899.

Orissa ...	Cuttack ...	2,393,149	1,161,200	1,500	2,100	2,100	75	75	An average outturn is not expected this year, as no silt was deposited on lands owing to low floods.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF APRIL 1900.

WEATHER during April was not remarkable in any respect except in Assam, where the rainfall was excessive, if the records of the three scattered stations may be taken as giving a fair indication of what happened over the Province as a whole. In Bengal there was the usual hot weather with no exceptionally high temperatures, though at times mean excess was for several days together as much as 5° or 6° above the normal. On the other hand, disturbances due to passing depressions occurred at fairly regular intervals of about a week on an average, and during these periods of disturbance local storms were fairly general. The latter half of the month was more showery than the early part, and, compared with the normal, the heaviest rainfall was in the south-western districts. But the total fall at Silchar was out of all comparison heavier than in any part of East Bengal, and was nearly double what fell in the same month last year, which, it may be remembered, was an exceptionally favourable year for rainfall in the east throughout the season.

The depressions which affected weather in Bengal were four in number and, as usual in the hot season, were very shallow, and at times difficult to locate except by the variation from the normal. They, however, showed different features. Two crossed the north of the Province, and, instead of causing rainfall, were attended by hot westerly winds. The other two were farther south, and most of the rainfall of the month occurred during their passage. In the case of these last two the puzzling increase of pressure in North-East Bengal and Assam, frequently noticed before, and generally with the same result, forced these depressions southward over Orissa, the north of the Bay, and the south of Burma, and probably was the cause of the heavier rainfall than usual in the south-western districts of the Province.

In Chota Nagpur the average excess was 1·73 inches, in South-West Bengal 1·05, and in Orissa ·62 inch, while in Bihar and East and North Bengal there was a deficiency varying from a quarter of an inch in the first to rather more than 1 inch in the last.

Temperature was at times several degrees above the normal, chiefly when west winds were blowing, and after the occurrence of thunder storms about the same number of degrees below, so that the mean for the whole month differs very little from the normal. The greatest difference is excess of 1° in East and North Bengal and Bihar. In South-West Bengal and Assam there was defect of half a degree.

At the beginning of the month pressure after a slow fall was practically normal and very uniform over the Bay. A trough of low pressure lay over the north of the Province, and hot westerly winds were blowing over the southern districts, mean temperature being above the normal by amounts ranging up to 5° in Chota Nagpur. Pressure continued to fall during the two following days, and on the 3rd the area of lowest pressure was close to the Himalayas. With this arrangement westerly winds extended to the north of the Province and mean temperature was high in all districts. The shallow depression, which was then crossing the north of the Province, became better defined on the 5th, when the area of lowest pressure was passing from North Bengal into Assam, but on the following day it had filled up and the pressure distribution, after a brisk to rapid rise, was again normal.

During the passage of this slight disturbance, the first of the month, only a few very light scattered showers fell, but temperature remained high and gave way after the recovery of pressure and the return of easterly or south-easterly winds on the 6th.

Soon afterwards a second depression appeared in the western districts, also of very slight depth, but accompanied by irregular and variable winds. These changing winds caused numerous thunderstorms on the 8th and two succeeding days over a great part of the Province, followed by a considerable fall of temperature. The slow fall of pressure which began on the 7th continued on the 8th and 9th, after which there was a rapid rise over the north of the Province, and the depression became diffused over the north of the Bay and the south of Burma. Considerable oscillations of pressure succeeded, but from the 11th to the 15th there was practically no rainfall, and ordinary weather with westerly winds and comparatively low temperature prevailed.

During the latter half of the month two further depressions occurred, and in the interval between their occurrence winds were irregular and variable, with the result that weather continued showery from day to day. The first of these two disturbances began on the 15th with a brisk general fall of pressure. It passed eastward in the course of the succeeding two or three days, followed by comparatively cool westerly winds, but caused rainfall in Orissa and East Bengal only. On the 18th after the recovery of pressure the distribution was practically normal, and westerly winds extended over a large part of the Province.

The winds continued westerly on the 19th, but on the 20th they were mostly easterly, and with the change thunderstorms became prevalent in Lower Bengal and Orissa, and scattered showers fell in Chota Nagpur. The change in pressure, which was reported on that date, showed a fall in the west of the Province, and a brisk rise in the north-east, with a shallow depression approaching from the west. Its eastward movement was retarded by the rise in the north-east, and its line of advance became more southerly. It was not till the 26th that the general rise of pressure showed that it had either passed away or filled up. Throughout these days showers were of frequent occurrence, and even on the 27th, after an area of high pressure had developed over Bengal, thunderstorms continued in the southern districts. The area of disturbance was mostly in the south of the Province, and the

wave of low temperature moved southward along the west coast. Very low temperatures were experienced during the closing days of the month in the west and south of the Province, more especially in Orissa, and exceptionally cool weather prevailed in the Circars and Madras. During these days the only rainfall was in East and North Bengal, where scattered showers continued.

Pressure.—Though large changes, that is, changes of more than ·1 inch, rarely occurred, the pressure oscillations were rather larger and more frequent than usual. The depressions—four in number—which crossed the Province were shallow and ill-defined, but caused the usual disturbed weather as shown by shifting winds, thunderstorms with rain, and at times a large fall of temperature. Average pressure for the month was above the normal over the whole Province by uniform amounts of about ·02 inch. But as excess diminished towards the south, the distribution over the Bay was somewhat more uniform than usual.

Temperature was high at the beginning of the month, and occasionally afterwards there was a small excess; but as a rule during the latter half of the month weather was cool, and exceptionally low temperatures were experienced in the south-western districts towards the end. The average maximum temperature for the month varies from excess of 3° in North Bengal to defect of 2° in South-West Bengal. There is generally a small excess in average minimum temperature, greatest in Behar and East Bengal, but rarely more than 2°. In North Bengal the mean temperature on an average for the whole Division was 1·2° above the normal; in East Bengal and Bihar about 1°, and in Chota Nagpur about half a degree. In South-West Bengal, Orissa, and Assam there was defect of about half a degree.

Rainfall.—There were very few days during the month altogether without rain in one part of the Province or another, but the dryest days were betweeen the 1st and 7th and 11th and 16th. At other times showers more or less general were falling.

As stated above, the total fall was deficient in the eastern and northern districts, and in considerable excess for the season of the year in South-West Bengal, Orissa, and Chota Nagpur. East Bengal received on an average 3·6 inches, South-West Bengal 2·9, Chota Nagpur 2·3, North Bengal 2, and Orissa 1·7, while in Bihar the fall was ·3 inch, only half the normal for the month.

The rainfall occurred in smaller quantities than usual, so that the number of rainy days was not so much below the normal, East Bengal showing an excess in this respect, though the total fall was deficient.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the month of April 1900:—
